PROFILE

I am an active 2nd-year student in the Information Technology field with a focus on web development, user interface (UI) design, and databases. I am skilled and experienced in creating basic website projects and user-centric designs through my involvement in various academic and personal projects. I believe that the internship will be a valuable opportunity for me to expand my knowledge, strengthen my skills, and contribute in a collaborative and dynamic work environment.

COMMITTEE EXPERIENCES

Liaison Officer, Cultural Festival 2023 11/2023

- Efficiently coordinated event schedules, ensuring 100% adherence to planned agendas and timely execution.
- Effectively guided events for 30 participant groups, ensuring smooth execution and seamless transitions throughout the event.
- Demonstrated strong problem solving skills by promptly addressing and resolving challenges faced by competition participants, enhancing operational efficiency and satisfaction.

Liaison Officer, Hackathon Fab Creation 2022 11/2022

- Ensured smooth event execution by supervising 10 participant groups and facilitating guest engagement, resulting in positive feedback and an enhanced event experience.
- Established effective communication channels between participants and organizers, fostering a collaborative atmosphere and ensuring timely information dissemination.
- Effectively communicated relevant details to participants with precision and timeliness, improving overall understanding and streamlining the participant experience.

PERSONAL PROJECTS

Database System 04/2023 - 05/2023

- Designed and implemented customer-centric websites with intuitive user interfaces using JavaScript and CSS, increasing user engagement and accessibility.
- Integrated database connectivity features using PHP and MySQL, efficiently managing over 100 entries and ensuring data integrity.
- Developed robust web-based administrative tools, enabling comprehensive data management, including the ability to add, edit, and delete database entries, thus improving operational efficiency by 30%.

Economic Survival: Business Creation 09/2022 - 05/2023

- Acquired skills in collaborative teamwork to achieve shared objectives effectively.
- Demonstrated problem solving abilities in overcoming challenges encountered during entrepreneurial ventures.
- Exhibited resilience and adaptability in persistently pursuing growth amidst competitive environments.
- Cultivated self discipline to maintain perseverance and continuous improvement.

EDUCATION

Information Technology - Semester 5th 08/2022 - Present CGPA 3.42/4.00

President University

Courses

- Web Programming - Semester 1
- Database System - Semester 2
- Server-Side Internet Programming - Semester 2

SKILLS

Hard Skill : Microsoft Office, Canva, CSS, JavaScript, HTML5, PhpMyAdmin, SQL Query.

Soft Skill : Learning Initiative, Teamwork and Collaboration, Problem Solving Abilities.
